A WORLD OF PROBLEMS — British Prime Minister Harold Macmillan (left) and President Kennedy head for a conference on world problems ranging from NATO to economic policy. Sources said the two leaders would discuss Laos during a Potomac cruise aboard the yacht "Honey Fitz."

## Hammaraskjold Offers To Quit

Vote of Confidence By U.N. Said Assured

UNITED NATIONS, N.Y. (AP) — Secretary-General Dag Hammarskjöld left his fate in the hands of the United Nations General Assembly today with a standing offer to resign, but there seemed no prospect that a majority of the members would accept.

Hammarskjöld made his show-down move during the assembly's Congo debate Wednesday in an obvious maneuver to take the sting out of repeated Soviet bloc demands that he step down. Judging from the applause he received at the close of his unscheduled address, most delegates want him to stay on.

Hammarskjöld, who has been under mounting Communist attack since Soviet Premier Khrushchev demanded his resignation last fall, stood by his previous vow not to yield to the Red demand unless the assembly asks him to quit.

The U.N. executive also made clear he would consider silence from the assembly to mean he should remain in office.

He told the delegates: "I do not consider that I am entitled to present the General Assembly with a fait accompli by resigning because I have been requested to do so by a big power and its like-minded supporters."

"On the other hand, I regard the will of the General Assembly in this respect as my law, and the General Assembly may thus consider itself as seized with a standing offer of resignation were it to find it to be in the interest of the organization that I leave."

But, he added, if the assembly does not ask for his resignation, he must conclude that "you neither expect me to proceed on the basis of that offer, nor desire in any other way to avail yourselves of the possibility it opens."

Hammarskjöld's term of office does not expire until April 1963.

## Williamsport May Become Dry Village

According to reports here today, a petition is being circulated in the Village of Williamsport to prohibit the sale of beer in the community.

If 35 per cent of the qualified voters of Williamsport sign the petition, a local option bill will be placed on the ballot in November.

At present there is one business in the village that sells beer. If the petition is filed and given approval by the voters in the November General Election, the sale of all intoxicating beverages will be prohibited.

State liquor laws say that a village cannot, by ordinance, prohibit the sale of 3.2 per cent beer. A local option placed before the public is the only means of prohibition.

## U.S.-British Chiefs Slated To Map Strategy on Laos

WASHINGTON (AP) — President Kennedy and British Prime Minister Harold Macmillan are expected to begin charting strategy today for negotiations with the Soviet Union, Red China and other countries on a permanent settlement of the crisis in Laos.

The two Western leaders, in the second day of their Washington conference, were reported optimistic about Soviet agreement to a guaranteed cease-fire in the Laotian civil war.

They were expected to agree that once the fighting ends they should focus their efforts on unifying and neutralizing Laos, seeking that objective in a forthcoming international conference on the future of the Southeast Asian kingdom.

Kennedy and Macmillan, in fact, were described as substantially agreed in their positions on a

wide range of word problems—with one notable exception in the case of United Nations membership for Red China.

Their differences on this point could lead to trouble between the United States and Britain at next fall's meeting of the U.N. General Assembly. But the President and prime minister indicated a determination to do everything possible to minimize the split.

They discussed the Red China issue at the White House Wednesday in a series of meetings which began at 11 a.m. and continued until after 6 p.m. U.S. and British officials subsequently described the consultation as "most valuable and useful" in providing a basis for strengthening allied cooperation in many fields, despite the inability of either Kennedy or Macmillan to do anything to narrow the differences on Red China.

## 2 Boys End 140-Mile Trip Down Maumee

TOLEDO, Ohio (AP) — Two adventurous teen-agers, who subsisted for five days on spaghetti and beans, paddled their canoe into Toledo Wednesday night after a 140-mile trip down the Maumee River from Fort Wayne, Ind.

"Cold, wet, tired and hungry," was the way Mike Ferverda 16, and Gary Cantwell, 17, both of Fort Wayne, described themselves on arriving in Toledo.

Greeting the boys were their parents, Mr. and Mrs. H. A. Cantwell, and Mike's father, H. Lore Ferverda. They sanctioned the trip and were on hand when the youths started down the Maumee Saturday.

The exhausted high school juniors, out of school for the Easter vacation, explained their reasons for making the trip:

"Excitement, something to get out of town," wheezed Gary.

"An urge to do something different," puffed Mike as he put down his oar.

The only mishap occurred when Mike fell into the water while they were by passing a dam near Grand Rapids, Ohio.

"We had spaghetti for breakfast, lunch and dinner. . . . We mixed it with beans each time," Mike said. They spent their nights camped on the river bank.

## Two Injured In Accident

Two area persons were injured last night in a one - car accident between two miles south of Laurelville on Route 56.

Dale Disbennett, 18, and John Swackhammer, 17, both of Route 2, Laurelville, were admitted to Berger Hospital following the accident. Disbennett was reported in "satisfactory" condition at noon today and Swackhammer's condition was reported to be "poor."

State Patrolmen at Chillicothe said the auto, driven by Robert F. Meenach, 22, Laurelville, went out of control on a curve, ripped out several yards of fence and came to a halt in a stream beside the road. Meenach received no injuries.

Patrolmen said the car was demolished. Meenach was cited into Hocking County court on a charge of driving too fast for road conditions.

## Westinghouse Chiefs Survive Ouster Moves

PITTSBURGH (AP)—A proposal to oust the top three executives of Westinghouse Electric Corp., which was fined recently for anti-trust violations, has failed by a wide margin in a vote by stockholders.

Stockholder C. A. Olsen of Cleveland, Ohio, introduced a resolution at the annual stockholder meeting Wednesday asking the immediate removal of the President, Mark W. Cresap Jr.; board chairman, Gwilym A. Price; and executive vice president, John K. Hodnette.

Last February, 11 Westinghouse executives pleaded guilty or no defense to charges of price-fixing and bid-rigging in the heavy electrical equipment field. All were fined. Two went to jail for short terms.

Three other resolutions introduced by Olsen were voted down.

They were dismissal of all officials prosecuted, filing of suits against all persons in the corporation responsible for the indictments and the recovery of fines against the company amounting to \$372,500, and appointment of investigators to see if similar practices are still being carried on.

## Eichmann Transferred To Jerusalem Center

JERUSALEM (AP) — Adolf Eichmann was transferred Wednesday night from a prison near Haifa to the Jerusalem Community Center, a strong new concrete building where he will stand trial on charges of major responsibility for the extermination of millions of Jews during World War II.

Eichmann, 54, former German SS officer, was brought to Jerusalem in a police car in the early morning hours. The trial opens Tuesday.

## Code of Ethics For Ohio Aides OKd by House

Senate Republicans Unleash Wrath at DiSalle Criticisms

COLUMBUS, Ohio (AP) — A code of ethics bill barring state officials and legislators from acts which might conflict with their official duties has passed the Ohio House without a dissenting vote.

The conflict-of-interest measure first was proposed two years ago by Democratic Gov. Michael V. DiSalle. It now goes to the Senate.

Things were not so unanimous in the Senate Wednesday, however. The political pot boiled over with controlling Republicans loosing their long-pent-up wrath on the governor who has been pot-shooting the legislature for weeks.

Senate Majority Leader C. Stanley Mechem, R-Athens, was the star witness in defense of the legislature in an extraordinary 45 minutes of free-wheeling debate.

If the legislature is lobby-ridden, as DiSalle charges, Mechem declared, part of the fault rests with the governor's own cabinet members. He singled out Highway Director Everett S. Preston for conducting what Mechem called "the most vicious lobby I have ever seen."

He and Sen. Fred L. Hoffman, R-Hamilton, accused Preston of using unwarranted pressure in behalf of a bill to increase auto license fees from \$10 to \$12.50 a year while opposing a House-approved measure to give local governments the \$15 million a year in license fee funds now used to operate the Department of Highway Safety.

Democrats did not sit completely silent during the Republican assault. Sen. Charles J. Carney, D-Mahoning, substituted for Minority Leader Frank W. King, D-Lucas, who was absent because of his father's death.

Carney charged Ohio Republicans spent nearly \$3 million in the 1960 campaign, and inquired:

"Where did that kind of money come from? From the rank-and-file Republicans? No! You know it came from business in Ohio. You are just paying off your debts, boys!" Carney told Republican senators.

There was almost no debate as the House passed the code - of-ethics measure. The governor has said he supports the bill.

The measure, after considerable study, has been patterned after a law which now is operating without a hitch in New York state.

It would affect both state officials and their employees and legislators and their employees. Violators would be subject to a \$500 fine and a year in jail.

## Space Probe Reveals Great Solar Wind

CAMBRIDGE, Mass. (AP) — A space probe sent aloft from Cape Canaveral, Fla., last week revealed the existence of a great solar wind sweeping outward from the sun at millions of miles per hour.

This was disclosed Wednesday by Massachusetts Institute of Technology scientists who conducted the experiment.

The solar wind, they suggested, could provide the power for future space vehicles.

The space probe, fired by a Thor-Delta rocket, was described as a short cylinder with a tapering tail four feet long. Several antennas extended from the main section.

In the surface of the probe a special cup was installed. When electrons and protons streamed through the cup opening in outer space they were converted into electrical signals transmitted to earth.

Wind direction was learned by observing the intervals in which the rotating probe recorded entry of particles. They entered only when the cup faced the sun.

## War Hero's Tax Bill Paid By Sympathetic Americans

WASHINGTON (AP) — Lots of people—kindly people, sympathetic people, rich and poor, young and old, high and low — have helped Sgt. Alvin York solve his federal income tax problem.

Letters by the thousands have poured in from people wanting to contribute to the \$25,000 fund needed to wipe out the World War I hero's tax debt.

The goal now has been reached and hundreds of letters are yet to be opened.

This national outpouring of good will to a man who served his country well has touched Capitol Hill where much of the mail these days is of the pressure or "gimmie" type.

"These people are giving — not asking," said Rep. Joe L. Evins, D-Tenn., treasurer for the York Tax Fund Campaign. Speaker Sam Rayburn, D-Tex., touched off the drive two weeks ago with a \$1,000 donation.

There have been a few other big donations since then. But for every one of these there have been hundreds of \$1 and \$2 donations. Some sent pennies.

Who contributed? Here are some samples:

From Denver: "Dear Sirs — I am enclosing only \$1 to the Sgt. York fund. I am 81 and don't have much so excuse the small sum. Very sincerely, An old woman."

From Bobby Lamie, Kankakee, Ill.: "Dear Sergeant York—I am 9 years old and I help my brother with his paper route. My big sister said that you need help. I hope this 25 cents will help you."

Unsolicited letter from Washington, D.C., addressed in childish scrawl to "Sargent York" (sic): "Here is my allowance for a brave man." (Enclosed was 25 cents).

Michael G. Parker, 11, Bronx, N.Y., sent a dime, two nickels and two pennies taped to a sheet of paper and a note saying "Something for Sgt. York."

In addition to Rayburn, others

who contributed \$1,000 were Secretary of the Treasury Douglas Dillon, publisher William Randolph Hearst, former Undersecretary of State Will Clayton; Philip L. Graham, president of the Washington Post; and Abe Plough, Memphis, Tenn., drug executive.

There were numerous donations from men who served in the 82nd Division with York when he was credited officially with putting a German machine gun battalion out of action practically unassisted.

It was in the Argonne in 1918 that the Tennessee backwoodsman, then 31, performed his

amazing feat of killing 25 Germans and taking 132 prisoners.

The commander of the American Expeditionary Force Gen. John J. Pershing described York as "the greatest civilian soldier of the war," and made the recommendation that brought York the nation's highest military decoration—the Medal of Honor.

York, now 73, fell into income tax difficulties with the government several years ago because of income he received from a book and a movie based on his life and war exploits. The money melted away, York became ill and when the government presented its claim he was unable to pay.

## Dr. Finch, Mistress Get Life Terms for Slaying

LOS ANGELES (AP) — "We'll fight it, darling, we're still alive."

Wet-eyed and grateful a jury had spared their lives, Dr. R. Bernard Finch so consoled Carole Tregoff Wednesday after a third murder trial jury decreed life imprisonment for the once wealthy surgeon and his red-haired mistress.

Finch and Carole—convicted of murdering the playboy doctor's socialite wife — broke into sobs when the 10 men and 2 women of the jury decided after a dozen suspenseful hours to send the lovers to prison and not to the gas chamber.

Carole, at 24, no longer te tawny beauty she was two years ago as Finch's pampered mistress, cried at the verdict: "No, no, I'll be an old woman when I get out."

Finch, 43, dropped his head on his folded arms and cried until the counsel table in the packed courtroom was wet with tears. Then he said to his attorney: "Thank God, thank God."

Thus after three trials, a year and a half of suspense and an estimated \$750,000 of taxpayers' money, did one of the most publicized murder cases of recent years come to a dramatic conclusion.

Under California law, Finch and his now plumpish paramour will be eligible for parole, depending on their prison record, in seven years—1968.

The case was front page news from the chilly morning of July 19, 1959, when the body of Barbara Jean Finch, 36—a bullet in the back—was discovered on the lawn next to the Finch estate in suburban West Covina.

In the three trials—the first two ended in jury deadlocks—Finch testified that he went to see his wife to plead for a divorce not to kill her. He said she pulled a gun, they struggled — and the weapon accidentally went off.

Her dying words—according to Finch: "I'm sorry, darling, please take care of the kids."

The death weapon has never been found. Their attorneys automatically made a motion for a new trial, but attorney Keith admitted he has little hope the motion will be granted.

Judge David Coleman set April 17 for a hearing on the motion. Finch and Carole may be sentenced at the date, too.

## Committee To Pick New GOP Chairman

WASHINGTON (AP) — Sen. Thurston B. Morton of Kentucky has decided to turn over to a 26-member executive committee the job of picking his successor as Republican national chairman.

Morton has called a committee meeting in Washington for April 21-22. He heads the group.

Morton said that among the party business to be considered will be a recommendation for his successor. Morton steps down in June.

As matters stand, Rep. William E. Miller of New York appears to have the inside track for the job. Miller now heads the Republican Congressional Campaign Committee.

what she claimed was the jury's reason for convicting the defendants:

"I would say that Dr. Finch and Carole were their own worst witnesses and convicted themselves," Mildred R. Brown told the Los Angeles Examiner.

"It was the doctor's story of how the shooting occurred that led to the conviction. We didn't believe Carole's version either."

Mrs. Brown, who faintly resembles the slain woman, said she portrayed Mrs. Finch as one of the jurors — approximately the same height, 5 feet 10, as the doctor—played Finch's role.

Mrs. Brown said the jurors reached this conclusion:

If Dr. Finch had accidentally shot his wife while trying to throw the gun away, the bullet would have hit Mrs. Finch below the waist instead of in the back.

The surgeon contended he and Carole went to see Mrs. Finch about a divorce, that she pulled a gun and was killed when he tried to wrest it from her. The weapon has never been found.

## Deported Vice King Ignores His Lawyers

WASHINGTON (AP) — Carlos Marcello, long accused of heading the underworld in a suburb of New Orleans, La., is providing little help to his lawyers, who claim he was deported to Guatemala forcibly and illegally.

In fact, they seem to be working at crosspurposes.

While the lawyers were filing suit Wednesday in Washington demanding Marcello's return, Marcello acted in Guatemala City very much as if he wanted to stay.

U. S. immigration officers had rushed Marcello to the Central American republic Tuesday. He appeared unexpectedly Wednesday at Guatemala's Interior Ministry and submitted documents attempting to prove he was a Guatemalan.

This astonished Marcello's lawyers, David Carliner and Jack Wasserman. They asked a U.S. District Court to declare Atty. Gen. Robert F. Kennedy and J. M. Swing, immigration commissioner, in contempt of court.

In the eight years that the U.S. government has tried to deport Marcello he has been listed in proceedings as a native of Tunis in North Africa.

Marcello was deported for violating the federal narcotics law.

## Cuban Firing Squads Chalk Up 601st Victim

HAVANA (AP)—Firing squads executed two more men in La Habana today, raising to 601 the unofficial total of persons executed by Prime Minister Fidel Castro's regime since he took power on Jan. 1, 1959.

They were condemned by separate military tribunals Wednesday night.

The two tribunals also sentenced 24 persons to prison for terms ranging from 9 to 30 years on charges of counterrevolutionary activities.

## U.N. Troops Are Target of Blacks, Whites

Business Places In Elisabethville Withhold Services

ELISABETHVILLE, Katanga (AP)—The Katanga government and black and white residents of Elisabethville kept up an economic war today against United Nations troops despite President Moise Tshombe's truce with the U.N. command.

All business places, including garages and cafes, still refused to serve U.N. personnel.

The chief U.N. spokesman in Katanga, Michel Tombelaine, was ejected from a downtown hotel Wednesday night by the hotel manager and a Belgian police officer as a crowd of whites jeered.

The Belgian officer and Marcel Tignee, Belgian adviser to Interior Minister Godefroid Munongo, told Tombelaine that Tshombe's order to impose economic sanctions on U.N. troops had not been rescinded.

A U.N. spokesman said Wednesday that after a conference with U.N. officials, Tshombe had agreed that sanctions would be "suppressed but not lifted." The spokesman called this terminology a face-saving device by the president. But neither the Katanga radio nor local newspapers made any mention of Tshombe's assurance.

The U.N. military commander in the Congo, Gen. Sean McKeown of Ireland, warned Tshombe during the two-hour conference he would reinforce his garrison in Elisabethville with Indian troops if there was repetition of Tuesday's mob violence against the U.N. force. Tshombe violently opposes use of Indians in Katanga.

About 300 Irish troops poured into Elisabethville Airport Wednesday to relieve the Swedish garrison that was attacked Tuesday. There was no resistance to the arrival, and another 600 Irish were expected today.

Under the agreement with Tshombe, the Irish and Katanga police will guard the airport jointly.

Swedish troops early Tuesday thwarted an attempt by a small Katanga army detachment to take full control of the airfield, which was controlled jointly by the U.N. and Katanga police. Enraged, Tshombe ordered "general sabotage" against U.N. personnel, cut off the electricity and water at U.N. headquarters, and whipped up a mob march on the airport.

## Judge Frees 2 Spouses In Slayings

COLUMBUS, Ohio (AP)—A man and woman, each accused of slaying their spouse, have been placed on probation in common pleas court.

Judge George B. Marshall, explaining his actions, said:

"Both were crimes of passion and emotion. They were domestic situations that had festered for a considerable time. Putting either in prison will not further justice."

The two are Mrs. Mary Nell Quickle, 32, accused of shooting her husband, Jack, 35, last July 30, and Milo Simmons, 51, now of Philadelphia, Pa., accused of shooting his wife Dec. 26, 1959.

Mrs. Quickle was placed on probation for two years. She had been indicted for second - degree murder but was permitted to plead guilty to a charge of manslaughter. Police said she told them she became angry when her husband attempted to awaken her so she would move her car to make room for his own in their driveway.

Simmons was placed on three years' probation after a jury found him guilty of manslaughter. Authorities said that before Mrs. Simmons had been shot she had poured gasoline on her husband and set him afire. She had been a former state hospital patient.

Circleville ran into traffic light trouble last night. Officers said lights on Court and Main Sts. were out from about 10:30 to 1 a. m. They said coils in the switchbox at headquarters burned.

Patrolman William Brungs repaired damaged gear last night and the lights were back in operation by early morning.

## Metzger Is Dismissed From Berger Hospital

Samuel B. Metzger, 68, Columbus, was dismissed from Berger Hospital today.

He was admitted to the hospital Monday after attempting to commit suicide by cutting himself with a razor blade in the Pickaway County Jail.

Metzger was being held on a charge of issuing checks with no account. The case was dismissed this week by the Pickaway County Grand Jury.

The water show will be sponsored by the Marilyn Club, a women's swimming group at Miami U. The show is planned and directed entirely by club members, including choreography and costume features which help create the mood of various numbers.

## Strategic Air Arm Said Still 'Tops'

WASHINGTON (AP) — Chairman Richard B. Russell of the Senate Armed Services Committee says the U.S. Strategic Air Command is still "the most destructive striking force now in operation."

Russell, a Georgia Democrat, made the comment Wednesday after his committee held a top-secret briefing on Soviet military might.

Gen. Lyman L. Lemnitzer, chairman of the Joint Chiefs of Staff, and defense intelligence leaders presented what Russell called "a highly classified briefing on our strength and their best estimates of any potential enemy strength."

## Small Explosions Probed in Parma

CLEVELAND (AP) — Police in suburban Parma today continued their investigation of the latest in a series of small explosions.

The third blast in two days and the fifth this year occurred Wednesday in a washroom at Parma High School as students were leaving the building for the day. No one was injured.

Lt. Leonard Benedict said bits of paper at each explosion site indicate a cherry bomb—a powerful firecracker—probably was used. The police office said he feared the force of the explosion could maim someone.

In the other blasts, a bird feeder, two milk chutes in homes and a garbage can were shattered. Lt. Benedict said investigation so far points to no motives or patterns.

Merle Jones, East St., yesterday reported to police the loss of a 10-day temporary license plate.

calling for the Christmas vacation period to start December 20. Classes will then resume January 2.

According to the new schedule, there will be 177 days of school. The period will include two holidays and one teachers' meeting session to make a total of 180 required days.

**THE** September 1 opening day falls on Friday. No classes will be held on the following Monday of Labor Day, but sessions will resume on Tuesday.

Board members said this open period will allow teachers and administrators time to prepare and make final class arrangements for the students who reported in on Friday.

In other board action Tuesday night, all teachers in the Circleville school system were re-employed. Contracts will be issued by the clerk of the board before classes close in May.

**Salaries will be based upon** training and experience as determined by the teachers' salary scale.

Mrs. Betty Rickey was granted a continuing contract. She has five years experience as a high school teacher and holds an 8-year professional certificate.

## 2 Extra Days Given Taxpayers

WASHINGTON (AP) — The nation's taxpayers will get two extra days this year, until April 17, to file their federal income tax returns.

Because the normal April 15 deadline falls on a Saturday, the law provides for an automatic extension to the following Monday.

Whenever a federal tax deadline falls on a Saturday, Sunday or holiday, it is extended to the next day which is not in this category.

The law isn't specific on this point, but past practice has been to consider as filed on time any mailed return postmarked before midnight on deadline day.

## Governor Talks To Condemned Man

COLUMBUS, Ohio (AP) — Gov. Michael V. DiSalle, nearing a decision in the case of a slayer scheduled for execution in Ohio Penitentiary Friday night, paid a visit to the condemned man at the penitentiary today.

He talked again with Richard Rutherford, 26, of Bridgeport, convicted in the slaying nearly four years ago of his life-long acquaintance, Lawrence Price.

The governor, who opposes capital punishment, saved the man from the electric chair last July 8 to allow time for an appeal to the United States Supreme Court, which refused to review the case.

Testimony was offered in court that Rutherford killed the 30-year-old Price because of jealousy over Price's dating of a girl friend.

## Boy, 3, Dies as Pal, 8, Handles Loaded Shotgun

**MAUMEE, Ohio (AP) —** The blast from a 12-gauge shotgun held by a playmate killed 3-year-old Danny Easterwood Wednesday.

The boy, son of Mr. and Mrs. Delbert Easterwood, 301 W. John St., was visiting with his grandmother, Mrs. Ward Constantine, when the accident happened.

The victim's uncle, Gary Constantine, 8, apparently took the gun from a closet, police said. It accidentally discharged, the blast striking the Easterwood boy in the stomach.

Mr. Bernard A. Parks, 79, Columbus, died at 10 p. m. yesterday in Mt. Carmel Hospital, Columbus.

He was born Oct. 11, 1881, in Lockbourne, a son of William and Harriet Hedges Parks.

Mr. Parks is survived by a brother, Thaddeus, Columbus, and several nieces and nephews.

Services will be at 10 a. m. Saturday in the Bastian Funeral Home, Ashville, with the Rev. William Carter officiating.

Burial will be in Reber Hill Cemetery. Friends may call at the funeral home beginning noon tomorrow.

## GOP Leaders Chided for Laos Sniping

WASHINGTON (AP)—Sen. Hubert H. Humphrey, D-Minn., urged Republican leaders today to drop what he called their "political guerrilla warfare" against efforts to solve the Laotian crisis.

Humphrey, the assistant Senate Democratic leader, said GOP attempts to define a coalition government of Laos as one necessarily dominated by Communists amounts to "emotional misrepresentation."

"The critical international situation in Laos should not be exploited for partisan advantage," Humphrey, a member of the Senate Foreign Relations Committee, said in an interview.

Sen. Thurston B. Morton, R-Ky., GOP national chairman, told a party fund-raising dinner in Luray, Va., Wednesday night that President Kennedy should "repudiate" a suggestion by his roving Ambassador, W. Averell Harriman, that the only way to make Laos a neutral nation would be to establish a coalition government.

## Three Emergencies Treated at Berger

Three persons were treated and later released at Berger Hospital yesterday.

Ora Adams Jr., 25, of 929 S. Washington St., suffered a puncture wound of the right foot when he stepped on a nail at work.

William Salyers Jr., 4, son of Mr. and Mrs. William Salyers, Route 3, cut the left side of his head when he fell at home.

James W. Grabill, 26, Route 1, Orient, received a skin abrasion of the right arm at work.

## Stock Mart Trading is Restrained

NEW YORK (AP) — Trading moved at a restrained rate on the stock market early this afternoon with prices mixed.

The Associated Press 60-stock 243.1 with industrials up .30, rails up 40 and utilities down .30. Prices fell below their best level of the session.

Investors apparently still were impressed by the statement in which Keith Funston, president of the New York Stock Exchange, urged caution in making investment.

The oils turned in the best performance of any group with gains up to a point or so. Steels, motors and electronics advanced. Aircrafts and utilities were mixed. Rails declined.

Southern California Edison fell 2 1/4 to 71.

Steels gained fractionally. Bethlehem added 1/4, Republic added 1/2.

Union Oil led its advancing group with a gain of about 2 points while Jersey Standard, Texaco and Getty moved up around a point.

Jewel Tea lost more than 2 points.

American Telephone declined more than a point. Allegheny Corp. was unchanged.

Gaining about a point were Zenith, Anaconda, Union Carbide and Brunswick.

Volume for the first two hours was 2.01 million shares, compared with 2.14 Wednesday.

The Dow Jones industrial average at noon was up 1.14 to 678.46.

Corporate bonds advanced. U.S. government bonds were unchanged.

## Tavern Burglary Is Investigated

The Pickaway County Sheriff's Department yesterday investigated a burglary at Del's Tavern, South Bloomfield. About \$100 was reported missing.

Del Shade, owner of the tavern, told Deputy William Pontious the money was taken from a cigar box and sack. He said the money was in bills.

Shade said approximately \$20 in change was left untouched. Nothing else was reported missing.

Entry was gained by breaking a glass and unlatching a rear window. Shade said the burglary apparently came after he left the tavern at 9:30 p. m. Tuesday.

## Fear, Ignorance, Delay Increase Toll by Cancer

**EDITOR'S NOTE** — Because of fear, ignorance and delay 85,000 Americans who could have been saved die of cancer each year. In this last of a series, Arthur Godfrey — honorary education chairman of the American Cancer Society's current crusade — tells how he reacted to the dread diagnosis and recommends a course of action for everyone.

**By ARTHUR GODFREY**  
Written for The Associated Press  
Like most people, I'd always thought of cancer as a disease that happens to the "other fellow" until two years ago, when it happened to me.

How did I react?  
With disbelief, horror, haste. In that order.  
The doctor advised surgery. He said: "The sooner, the better." There are no two ways about cancer. Either you destroy it or it destroys you. So I didn't delay.

Unfortunately some people are not informed or are so paralyzed by fear that they permit the cancer to destroy them. They have a horror of cancer that

makes them avoid the family doctor until it's too late for cure — or which even sends them on a wretched journey to quacks, charlatans and purveyors of fake remedies and home cures that can't possibly help them.

Without a single research advance, without any new developments in diagnostic and treatment methods, the doctors could, actually, save 85,000 more cancer patients a year than the 170,000 they are now saving.

The American Cancer Society tells me that those 85,000 people have the kinds of cancer that can be cured by prompt, proper treatment. Their lives depend on knowing what to do—and doing it without delay.

Improved communications could save them.  
Now this is an area I know something about, after 32 years at radio and TV.

What is required is an all-out effort through all the media against the fear, ignorance and superstition which each year kill 85,000 people needlessly—men and women whom medical knowledge can—should—and must save.

There are barriers to overcome. One of them is a belief in black magic and mumbo jumbo that is not confined to the undeveloped areas. It exists right here, in the U.S.A.; not in the back hills and remote areas alone, but often in our big cities, and, surprisingly enough, even among some otherwise educated and intelligent people. Some of these men and women believe that certain foods or living habits can afford protection against cancer.

Now a certain amount of fear is healthy and necessary for self-preservation. That's the kind of fear which leads a man or woman to heed a cancer warning signal and brings him or her to the doctor's office without delay. But there's another kind of morbid, neurotic fear which leads to self-destruction. It keeps people who are worried about possible cancer symptoms away from the doctor's office.

These morbid fears wear many masks. There's the rationalized indifference to cancer—an indifference based on terror. Some people simply refuse to have an annual

health checkup or to learn the simple facts about cancer that can save their lives. That's the ostrich type, who prefers burying his head in the sand to looking facts in the eye.

There's the hale, hearty type who passes up the annual check-up because he or she "never felt better." And if symptoms should develop, this brave individual sits it out, week after week, month after month, heroically ignoring the warning signals until it's just too late for cure.

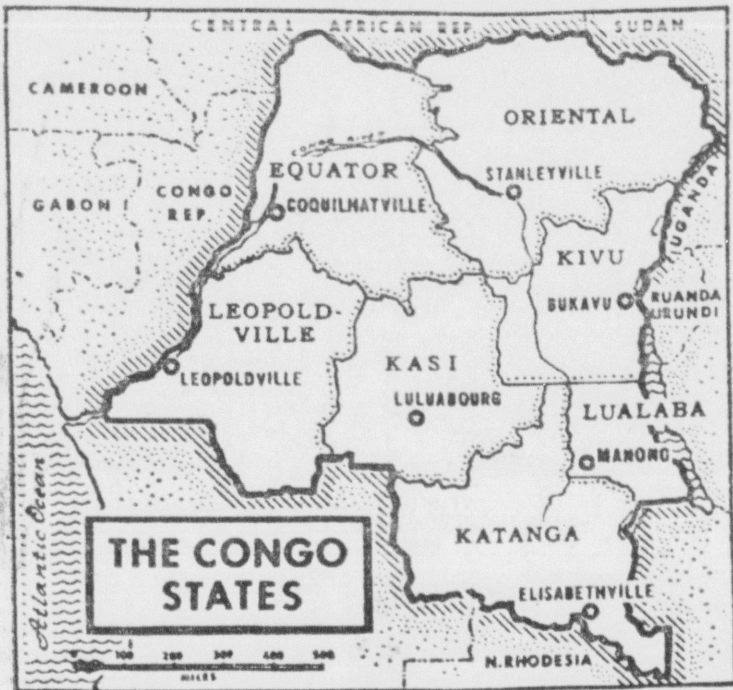

The facts are that an annual health checkup saves money and anxiety in the long run. Early detection can save your life as well as your savings. A clean bill of health, which is what the vast majority of people get from their doctors, brings peace of mind and an end to nagging fears.

One-third of all cancer patients are now being saved. One-half could be saved by earlier detection and prompt, proper treatment. Convincing people of these facts

isn't easy. People tend to cling to ingrained thought habits.

That's where the mass media comes in. They can help save lives. They can take this message into every American home. They can help wipe out the barriers of misinformation and let the new, optimistic knowledge about cancer grip the minds and hearts of Mr. and Mrs. America.

Much has been done. But so long as 85,000 people a year die needlessly of cancer, much more remains to be done.

## Deported New Orleans Vice King Sought by Guatemalans

GUATEMALA (AP) — Carlos Marcello, New Orleans underworld chieftain deported from the United States, yesterday faced arrest or deportation again if Guatemalan immigration officials can catch him.

Marcello arrived here Tuesday aboard a U.S. border patrol plane and promptly disappeared in company with Col. Antonio Batres, second in command of the Guatemalan air force.

Immigration officials waiting for Marcello were left empty-handed when his plane landed at a military airport. They angrily vowed to hunt him down.

"If he is a Guatemalan, we are going to arrest him, and if he isn't, we are going to deport

him," said Ramon Alvarado, immigration office spokesman.

Marcello's connection with the air force officer was not known. The air force declined comment.

Immigration officials could not explain why the plane landed at the air force base. They said they were unable to find Marcello in the city.

"We have checked all hotels, and he isn't there," said Alvarado.

Marcello, 51, reputedly directed a huge police-protected crime syndicate with headquarters in Louisiana's Jefferson Parish, adjoining New Orleans, and operations in other parts of Louisiana, Alabama, Mississippi, Texas and Arkansas.

Labeled the No. 1 law violator in the United States by Sen. Estes Kefauver, Marcello conducted a running court battle for nine years against the U.S. government's attempts to deport him because of a narcotics conviction and because he had never become a citizen despite long residence in the United States.

Three times he took his case to the U.S. Supreme Court, losing each time.

Immigration officials in New Orleans clamped handcuffs on regular tri-monthly reporting visit Marcello without warning Tuesday when he showed up for his regular tri-monthly reporting visit to the immigration office. He was hustled aboard the airplane without time to pack a toothbrush or say goodbye to his wife.

U.S. authorities said Guatemala had agreed to accept a birth record provided by an informant showing Marcello was a Guatemalan, born Calogeros Minacore on Feb. 6, 1910, to an Italian couple in the village of Palo Blanco.

Alvarado's remarks indicated he was not satisfied Marcello is a Guatemalan. Other Guatemalan officials said when Marcello left Guatemala for the United States, he carried an exit permit, not a passport, and identified himself as a businessman named Calogeros.

## New Rating on WW II Generals

After a couple of whams at American military leadership during World War II by some British commentators, including Field Marshal Montgomery, it is refreshing to note a more objective summary by Capt. B. H. Liddell Hart, top military analyst among the Britons.

The late Gen. George C. Marshall is described by Hart as an able organizer with vision who "became the dominant influence on Allied strategy." He dismisses Montgomery as a truly professional soldier of the plugging type who "lacked a natural instinct for surprise and flair for the unexpected."

Gen. Omar Bradley draws the compliment of being "the best of all in the European theater by an all around gauge." Though General Eisenhower was not a great strategist, Hart lauds him as a co-

ordinator who probably did the best possible job of handling an international team. The top rank is given to Gen. Douglas MacArthur. He was in "a class above other Allied commanders in any theater. His faults . . . were of a kind that is often characteristic of genius."

This appraisal of Allied generalship in World War II may come nearer to enduring in military annals than many others of the last 15 years.

## How To Be President of PTA

By Hal Boyle

NEW YORK (AP) — No one's education in life is quite complete until he seeks to be elected something or other.

It isn't necessary to seek high public office—to aspire to be a senator or a governor or a tenant of the White House.

Running for the presidency of a private club or organization of any kind can be equally enlightening as to the vital dynamics of democracy.

A man learns the same basic facts of politics whether he runs for the presidency of the United States, or for the chairmanship of the local branch of the International Society for the Betterment of the Petunia.

As a matter of pure truth, the infighting in amateur politics is probably more intense than it is in the field of professional politics which is, to some extent, affected by traditional rules.

You are an ordinary man reasonably content with an ordinary job, a wife and two ordinary children. You rather unwillingly join PTA because—well, you feel you ought to.

You sit silent through the first few meetings. Then, one night, when the audience is asked for suggestions as to how to improve

the school, you get up.

"Why don't we get the gym mats cleaned? They look pretty dirty," you say.

Later Jo Doakes, one of the king makers of the organization, approaches you.

"That was a mighty constructive proposal you made. This outfit needs fresh minds and new blood. How about you running for president?" he says.

So you launch your campaign for the presidency on a liberal platform: "Let's get the gym mats cleaned—and hang the expense."

A week later a second faction appears with a candidate whose slogan is, "Why imperil our children's safety with used gym mats? Let's buy new gym mats!"

A third candidate then arises with the cry, "Let's build a new gym." Then a fourth candidate emerges with an even hotter issue: "What our community deserves is a brand new school."

The whole situation has changed. Instead of being a forward-looking liberal, you are now tagged as a foot-dragging old fossil with his mind in the past, a real drag on the community.

Rumors spread that you are a

wife beater, a tax dodger and a man who starves his kids on stale bread and water in order to keep up sumptuous love nests in two neighboring suburbs.

Well, on the advice of Joe Doakes, you rent a mimeograph and start grinding out campaign literature. You and your supporters hold endless caucuses far into the morning, and soon you are spending more time and effort trying to be president of the PTA than you are in earning a living.

Old enemies suddenly become warm friends, and old friends unexpectedly become new enemies. You have a strange sense of unreality. You don't feel you have changed, but the world around you has.

Comes election night and you are badly swamped. The PTA overwhelmingly votes in as president the husband, fingering a piece of toast. "Now would you mind passing me the putter?"

You are a defeated man. But you have learned things about yourself and your community you never could have discovered unless you had run for an elective office, and submitted yourself to the voting discipline of your fellow man.

## Commies Have Eye on Guiana

By George Sokolsky

I forgot all about British Guiana in the welter of nations and revolutions that plague us these days. Then came a letter from a reader and I was reminded of the effort made some years ago by Dr. Cheddi Jagan and his wife, Janet, to establish a Communist state in that country.

Janet Jagan was born in Chicago and settled in British Guiana with her husband. For a time, they had quite a run and then they disappeared from the news. I thought that they were dead, but not so. They are very effectively taking over British Guiana.

It seems that in August of this year, British Guiana will become self-governing except as to its foreign policy. The country lies on the northern edge of South America and does not amount to much, but it can be very troublesome if it becomes a satellite of Soviet Russia. The People's Progressive Party is led by Dr. Cheddi Jagan

and his wife Janet and it is, beyond doubt, a Communist Party. So in August, there will be elections and the People's Progressive Party led by an East Indian dentist and a gal from Chicago, is likely to take over. I am told that Chinese, Hungarian, British and American Communists are presently in British Guiana prepared for The Day. Nobody, in particular, is preparing against the time when the British withdraw.

During the past four years, the P.P.P. has paved the way for a Communist Revolution. There has been a Cuban loan of \$8,000,000 and some technicians for the exploitation of the timber resources of British Guiana. Communists are being appointed by Jagan to official positions. Jagan has thus far not been able to gain control of the courts but if he wins the elections in August, the courts will be his to be used for political purposes and to strengthen his power.

Jagan's slogan is: "We have friends with rockets, guns and gold." By this he means that Soviet Russia will support Jagan's program.

Much can be written on this subject. Suffice it that a revolution is boiling in British Guiana and nobody seems to care. The same is true in Venezuela and Panama.

In a word, with Cuba as a center, much progress is being made in various parts of Latin America by Communist forces and nothing startling or significant is being done about it anywhere.

Taking for granted that it does not matter too much where the United States makes its stand against

Soviet imperialism so long as a stand is made, it nevertheless is surprising that so little has been done about Cuba, British Guiana or any other part of Latin America. The violent movement leftward in Brazil is especially frightening, as there has been a long history of friendship between the United States and Brazil and there was no foreboding that Brazil would turn anti-American, which that country is today.

How much of our national wealth we have poured into Brazil, both from government funds and private resources, it is difficult to calculate but the amount is enormous. The present President of Brazil is a Castroite, a believer in that type of revolution which is based on anti-Americanism and which utilizes anti-Americanism as a weapon to stir the people to antagonism to this country and to the property of American citizens, thus making this particular type of revolution palatable.

It is an old trick to fool the people by feeding them the opiate of an external hate. It gives the ruler an opportunity to oppress and abuse his own people in the name of that hate. If President Quadros is successful in Brazil, and Dr. Jagan is successful in British Guiana, this attitude of hate will spread farther in Latin America.

Some time next September or October, criticism of American officialdom will be regarded as hindsight and the critics will be accused of always finding flaws after the event. Well, here is a bit of foresight as clear as day and what is anyone doing about it?

Just think: In 1961, Soviet Russia has pushed farther into Asia by means of imperialism in Laos, has pushed into Africa by means of revolution in the Congo, has pushed into Latin America by consolidating its position in Cuba, opening a new field in Brazil and preparing for a take-over in British Guiana in August.

Where are we going to stop these advances and when? Must we wait until there is no place to stop them?

## Try and Stop Me

By BENNETT CERF

ONE BRIGHT SPRING morning a commuter announced to his wife at breakfast, "It's too nice a day to go to the office."

"Good," said the wife, "but don't think you're going to play golf. There are a lot of things that need doing around the house."

"Golf was the furthest thing from my mind," protested the husband, fingering a piece of toast. "Now would you mind passing me the putter?"

A summer stock company graduate got his first job on Broadway: a small part of a melodrama. His first line followed the firing of a shot. He was required to express surprise and say, "Was that a cannon I heard?"

He rehearsed perfectly, but was undone by opening night jitters. The gun was fired. The actor jumped two feet and exclaimed, "What the hell was that?"

It's easy, insists Morey Amsterdam, to single out the kid in a crowd who hails from Texas. He's the one totting the pearl-handled slingshot.

## They'll Do It Every Time

By Jimmy Hatlo

## The Business World

By Sam Dawson

NEW YORK (AP)—The yen to make a fast buck is an old American characteristic. But if its devotees turn in droves from the \$2 window at the race tracks to the stock brokerage offices there's always the danger that should they guess wrong they can hurt more than just themselves.

A boom built in part on plain ignorance and greed could lead to a bust that would harm the sound investors in American business.

That is why alarms are being sounded today. How much good these warnings will do is debatable. The yen sometimes feeds on warnings, mistaking them for indications that the big boys expect rising prices to go on indefinitely.

Some brokers are now viewing with less than whole-hearted enthusiasm the rush of the general public into the stock market.

The brokers appreciate the in-

creased volume of commissions they get on a seven-million share day on the New York Stock Exchange. But when a lot of their new customers seem ignorant of the nature of the stocks they want bought, the brokers remember other years when such plunging by novices led to unhappiness for all.

At first this year's heavy trading in stocks was attributed to big investors picking up bargains, or preparing for the expected business recovery, or perhaps hedging against feared revival of inflation.

Big investment institutions, various funds and others with money piling up, were said to be doing much of the buying—at least much of the wise buying.

Of late it's evident that the general public is in here plunging. Some of this buying—perhaps a majority of it—is done on just as sound reasoning as that used by professionals guiding the purchas-

ing for the pension funds, the mutual funds, the trust holdings.

But for those who are just out looking for a fast buck—without much of an idea as where it can be found beyond some vague tip picked up somewhere—advice is now pouring in.

Trading on the exchange went above the seven-million share level this week for the 17th time in its history. It has topped six million shares 47 times. The highest volume was 16,410,030 shares Oct. 28, 1929, at the start of the Great Depression.

Many more shares are listed on the exchange now—more than 6.5 billion today, a gain of 4 billion in the last 10 years. Today's volume looks less awesome with that in mind.

## 70 Ford Scholarships Go to Employes' Kin

CLEVELAND (AP)—The Ford Motor Co. Fund has awarded four-year college scholarships to 70 children of Ford employes throughout the country. Those receiving the grants, which pay tuition and fees, plus 80 per cent of normal living costs, up to \$750 a year, include Gary Barnes of Lima; George W. Lang of Lorain, and Billie Jean Clark of Carey.

## Ohio Idle Pay Claims Show Continued Decline

COLUMBUS, Ohio (AP)—New claims for unemployment compensation dropped from 25,812 reported in the week ended March 25 to 21,667 in the week ended April 1, the Bureau of Unemployment Compensation announced yesterday. There was a decline from 220,000 to 214,882 in the number of continuing claims of those unemployed one week or more.

LOREN COCHRAN, 34, is shown under police questioning in Kankakee, Ill., where he leaped to safety from a burning apartment, leaving daughters Candy, 3, and Amber Morgan, 6 months, to die in the flames. Police say he could have carried them out. Cochran is charged with involuntary manslaughter.

WASHINGTON (AP) — President Kennedy's administration this week released a brilliant, 36-page indictment of Fidel Castro's Cuban revolution. But what it adds up to is this: Castro's tough to handle.

This indictment, called a State Department White Paper, says Cuba is under Communist control, accuses Castro of betraying his revolutionary promises of freedom and social justice, and calls Cuba a menace.

Copies of the White Paper will be distributed widely in Latin America where Castro has support, particularly among the labor masses who applaud his taking land from the rich in Cuba.

But it doesn't offer any solutions for getting rid of Castro unless you want to read into it a veiled suggestion this country would help a new revolution against him.

Here are some examples of why he's tough to handle:

1. He has the active support of Russia and Red China, Last Aug. 9 Premier Khrushchev threatened to intervene with rockets if this country was responsible for an attack on Cuba.

2. Other Latin-American governments—some of them shaky—are hesitant about even criticizing Castro because of his popularity among left-wing groups and the masses in their own countries.

While there is no talk in this country of attacking Cuba—which has become a Russian spearhead in the Western world—other steps short of armed force might be used but the consequences could be unpleasant:

1. For instance, the White Paper says Russia has been pouring arms into Cuba. Suppose, because of this or for some other reason, this country tried to blockade Cuba.

Russia might retaliate at once by trying to blockade West Berlin to shut it off from the Western allies with whom it has all its ties.

2. While this country broke off diplomatic relations with Castro and put some restrictions on sugar dealings with him, it still has economic dealings with Cuba. Suppose this country now tried tough economic sanctions.

The result might be increased ill-will toward the United States throughout Latin America at the very moment when President Kennedy is trying to improve relations.

3. As for American military action—that probably would set back this country's relations with the rest of Latin America by many years.

The time may come when the United States feels compelled to take far harsher action than any tried so far. If that time arrives

## 30-Year-Old College Fund Still Helping

CINCINNATI (AP) — Thirty years ago a Cincinnati woman turned over \$2 million to the University of Cincinnati, and since then it has come to the aid of scholars and students with another \$2 million.

In those three decades, learning was supported in classics, English, German, Slavic and romance languages, economics, history, mathematics, philosophy and political science.

The woman was Mrs. Charles P. Taft and the money she gave set up a memorial fund to her husband who had founded the old Cincinnati Times-Star.

Dr. Walter Langsam, university president, said Tuesday the \$2 million principal of the fund is still intact.

"The thoughtful and generous memorial of Mrs. Taft a generation ago is an example of aid to education of the highest magnitude," Dr. Langsam said.

In her letter to the UC board of directors, Mrs. Taft explained her desire to establish a fund to assist, maintain, and endow the study and teaching of the humanities in the College of Arts and Sciences and graduate school.

## Greyhound Set To Spend \$7 Million on Buses

CLARKSBURG, W. Va. (AP)—Eastern Greyhound will spend about \$7 million this year for new buses and the refurbishing of 962 others, including 300 semi-cruisers.

## Observance Day Set at VA Hospital in Chillicothe

Two major innovations are planned for the Hospital Day observance at Chillicothe's Veterans Administration Hospital May 7.

Free shuttle bus service will be provided, along a three mile route, so that the thousands of visitors expected can see all points of interest. A series of athletic tournaments and exhibitions will pit patient teams against those of voluntary service organizations.

Around 200 civic, fraternal, religious, service and governmental organizations are assisting with the daylong educational exposition at the Chillicothe VA Hospital. The manager, Dr. Sam Beanstock, says their participation ties in with this year's theme . . . "A Balanced Program for Living."

Dr. Beanstock also points out that the emphasis which is being placed on sports is in keeping with the purposes and objectives of the President's Commission on Physical Fitness.

African natives long have used willow bark tea to relieve the pain of rheumatism. Physicians have found salicin, a pain-killing drug, in the bark.

The ministers finally put together a declaration which not only didn't bang Castro but, while condemning outside intervention in this hemisphere, was so wishy-washy that the ministers disagreed among themselves on what it meant.

Last April President Eisenhower accused Castro of betraying the ideals of freedom and equal rights in his Cuban revolution. And in Costa Rica Herter talked about Cuba's coming under Red influence.

But neither man directly called Castro a Communist himself. Neither did this week's White Paper. But it did pile evidence upon evidence to show Cuba is run by Communists now. There is one nice irony in all this:

If the volatile and unpredictable Castro is not a Communist, because he refuses to accept party discipline, then its possible, though unlikely, some day he may turn on the Communists in Cuba and destroy them.

Therefore, at this moment they may wish they could knock him to prevent any turn-around by him later, now that he's served their purpose which was to get control.

But he is the popular hero. If he disappears, a new revolution might destroy them.

## DUV Selects Delegates

The April meeting of Catherine Wolfley Hedges Tent No. 101, Daughters of Union Veterans of the Civil War, 1861-1865, was held Tuesday evening in the home of Mrs. Richard Moon, 405 N. Pickaway St.

Mrs. Clara DeLong, president, opened the meeting in ritualistic form. Members voted to renew membership in the Pickaway County Historical Society.

Mrs. DeLong and Mrs. David Blue were chosen as delegates to the Department Convention in the Neil House, Columbus, in June. Mrs. Earl Smith and Mrs. Richard Moon are alternates.

Mrs. C. O. Kerns was in charge of a program of poems.

Mrs. Kerns read "People Will Talk"; Mrs. E. L. Tolbert "Story of Ruth"; Mrs. James Pierce — "Death's Carriage Stops the Way"; Miss Nellie Palm — "Wild Rose"; Mrs. Earl Smith — "I Would That She Were Dead"; Mrs. Moon — "The Little Black Hen"; Mrs. Frank Webbe — "A Mother's Pride"; and Mrs. Irene Jenkins — "Autumn Trails".

The next meeting will be held in the home of Mrs. Tolbert, Walnut St., with Mrs. Webbe as hostess.

## Mt. Pleasant WSCS Meets

Members of the Mt. Pleasant Methodist WSCS assembled in the church Tuesday afternoon for the April meeting.

The session opened with the group singing "He Hideth My Soul".

Mrs. Roy Rittinger read "Hitchhiking Christian" after which she led the group in prayer.

Mrs. Sam Kilian appointed Mrs. Ross Morehead and Mrs. John Dearth to the nominating committee.

Following the meeting, members participated in games, led by Mrs. Rittinger.

Refreshments were served by Mrs. Morehead and Mrs. Earl Metzger.

The next meeting will be at 1:30 p. m., May 2 at the church.

Guests included Mrs. Marion Mowery, Mrs. Wilbur Drake and son, William Rittinger and Mark Mace.

From Aaron Copland's setting of "Twelve Poems of Emily Dickinson," she will sing: "Nature, the Gentlest Mother", "Going to Heaven"; "The World Feels Dusty"; "Why do They Shut Me Out of Heaven?" "Heart, We Will Forget Him"; "There Came a Wind Like a Bugle".

She will close with: "Silence Spoke with Your Voice" by Robert Prahn "Five Eyes" by C. Armstrong Gibbs; "Oh Waly, Waly" in an arrangement by John Jacob Niles; and "Love Went a-Riding" by Frank Bridge.

Following the program a reception for Miss Wittich will be held in the parish hall. The public is invited to attend both the recital and the reception.

## Emmett Chapel WSCS To Meet Wednesday

Emmett Chapel WSCS will meet at 8 p. m. Wednesday in the home of Mrs. Pryor Har-mount, Route 1.

## Mrs. Bach Discusses Modern Art at Monday Club Session

Mrs. Edwin Bach Jr. presented "One Foot in the Louvre" at the Monday Club session Monday evening in Memorial Hall.

The following is part of Mrs. Bach's article: "What is art? It is an expression of each person's rediscovery of the universe."

The largest objection of modern art is "I don't understand it." You don't have to understand it. If it is pleasant to look at and if the colors or forms please you, if it is interesting, then the painting is good and has accomplished its purpose.

People have become so used to the familiar shapes and colors about us, that is what they expect. Quite often they like only what they are familiar with and reject that which is new.

Art, just as everything else, cannot stand still.

The first art rebellions occurred in France when a few radical artists gave up the convention of imitation of nature and moved away toward other than representational values.

These movements became Romanticism, Realism and later Impressionism. Before the 19th Century, the Impressionists had become the teachers and then a new revolt was necessary if art was not to remain static.

This was the beginning of the "isms" and the schools of thought and expression which we are now experiencing."

Mrs. Bach then explained the problems and progress of art up to this time.

"How then shall we look at modern art?" To give an illustration—a five year old came home from kindergarten proudly displaying his first drawing. He had covered the entire sheet of manila paper with blue crayon. "What is it?" asked his parents.

"Teacher told us to make a picture, so I drew a lake with no boats or people."

To that child the idea of "lake" was synonymous with an expanse of blue. He had given his "impression" of a lake in blue crayon.

The modern artist is not a photographer — instead he strives to create pictures which reflect his emotions and thoughts as well as his technical skill.

Abstract paintings are made to enrich our surroundings and have no more intellectual or emotional significance than any other decoration. One should not try to interpret such pictures, they are simply to be enjoyed.

Modern art cannot be denied. It belongs in our times. It expresses modern life, our life."

## World Religions Discussed At Presbyterian Group Meet

The Presbyterian Young Adult Group held its March meeting in the home of Mr. and Mrs. M. W. Burkhardt, Knollwood Village.

Guest speaker of the evening was Dr. W. L. Sprouse, director of Admissions at Ohio State University, and outstanding Christian layman.

In presenting his topic, "Religions of the World", Dr. Sprouse first gave the meaning of religion. He then told of the major religions of the world, giving their dates of origin, and the beliefs, ideals, and methods of worship of their followers.

A group discussion period followed his talk.

During the business meeting, conducted by the president, Don Vogel, a report was given on the church nursery, the club's project. Plans for the programs for the balance of the year were made. Election of officers will take place during the April meeting which will include a bowling party at Prairie Lanes.

Following the business meeting, Wayne Smith entertained the

group with his delightful and captivating magic act.

At the conclusion of the meeting refreshments were served by the co-hosts, Mr. and Mrs. Ronald Knecht and Mr. and Mrs. Donald Greenlee.

## Church Group Views Slides

Mr. and Mrs. Christian Schwarz showed slides of their trip to Hawaii Tuesday night at the April session of the Christian Home Society of Christ Lutheran Lick Run Church.

The meeting was held in the Trinity Lutheran Parish House, Circleville.

A covered-dish dinner preceded the business meeting and program. Mr. and Mrs. Noah List were hosts. Devotions were presented by Pastor Carl Zehner. The business meeting was conducted by William Hulse Sr.

Eighteen members and guests enjoyed the dinner and program.

## Delongs Plan Open House

Mr. and Mrs. Wayne Delong will observe their silver anniversary with open house from 2-6 p. m. Sunday in their home in Kingston.

Delong's children, Mrs. Fred Jones, Mrs. Fred Duve and Richard Delong will be in charge of the event.

They were married April 8, 1936 in Chillicothe by the Rev. P. B. Ferris.

## Guild 28 Stages Dinner-Meeting

Berger Hospital Guild No. 28 hosted a dinner-meeting Tuesday at Pickaway Arms, 115 E. Mound St.

Following the social hour Mrs. L. E. Foreman conducted the short business meeting in the absence of the chairman, Mrs. C. F. Stucker.

Mrs. Canning Vlerebome gave the secretary's report. Members agreed to send flowers to Mrs. Orion King who is ill in Hollywood, Fla.

The group voted to purchase dishes for the dietary room at Berger Hospital for the guild's 1961 project.

Mrs. C. D. Rector and Mrs. C.F. Sveaney, Columbus, were guests.

## Dear Abby...

By Abigail VanBuren

### She's Over-Extended!

DEAR ABBY: What can be done about a very generous person who knocks herself out helping others, but doesn't keep her own house clean? Her husband works out of town and she has three children. She will leave her own children alone to stay with other children if their mother is ill. She works for church suppers, PTA rummage sales and is always selling tickets for good causes. She will run errands or even do the laundry for her neighbors—but her own house is a mess.

She cooked an elaborate holiday dinner for a motherless family in her block and later we learned her own children ate tuna sandwiches. How do you set a big-hearted person like that straight without hurting her feelings?

A FRIEND  
DEAR FRIEND: You can't "set her straight," but you can try to understand her. I don't mean to discredit your "big-hearted" friend, but her kind of "generosity" is misguided. She "knocks herself out" for friends and neighbors because she thrives on the applause, thanks and reputation for helping others. If her own family does without, it doesn't bother her. A truly "generous" person gives her best to her family first, and if there is any time and energy to spare—she extends it to others.

DEAR ABBY: Exactly what is a flirt?

"TOUGH"  
DEAR "TOUGH": A flirt is someone who advertises something she has no intention of delivering.

DEAR ABBY: When I was 19 I married a man who was 27, and we were so much in love we never thought we would have any problems. We have been married two years and I am miserable.

He is a professional man, and I never got past the ninth grade. He is always correcting my English and has even suggested I go back to school and graduate. Abby, I feel that he thinks I am not good enough for him. If he loved me as I was, why is he ashamed of me now? What should I do?

MISERABLE  
DEAR MISERABLE: Get in touch with your Public Education System and resume your schooling where you quit. It can be done by mail, or in evening classes.

# Man Admits Trunk Murder Of Father

CINCINNATI (AP)—An anonymous tip to Cincinnati police has led to an apparent trunk murder in nearby Reading and arrest of the victim's son.

Cincinnati detectives discovered Harold Simmons, 34, in a crowded downtown Cincinnati bar Wednesday night and said he readily admitted killing his father in their Reading home.

The tip led Reading officers to the body of W. H. Simmons, 77, retired boilermaker, stuffed in a trunk in the basement of his home.

Officers said Simmons told them he beat and strangled his father because the older man tried last month to have him committed for psychiatric care.

The Hamilton County coroner planned an autopsy today.

Reading Police Chief Fred Engleman said the man was apparently beaten to death and both floors of the house where the two lived showed evidence of violent struggle.

After questioning by Cincinnati detectives, Simmons, a merchant seaman, was turned over to Reading police. No charge was filed immediately.

Edward Penno, probate court deputy, said a conversation last month with father and son indicated the two were at odds over disposition of the estate of the older man's wife, mother of the man in custody.

# How Weather Looks Today

COLUMBUS, Ohio (AP) — Official Weather Bureau summary of Ohio's weather outlook:

Generally overcast conditions persisted overnight, with scattered light rain throughout the central and northern portions. The east had some light snow mixed with rain.

Precipitation is likely as light rain mixed with snow in the north and a few sprinkles through the central portion. In the south, mostly dry weather is indicated.

Dry weather will return to all the state tonight except for the possibility of a few snow flurries in the northeast near Lake Erie. Cooler temperatures are forecast for today and tonight, with Friday afternoon temperatures likely warmer.

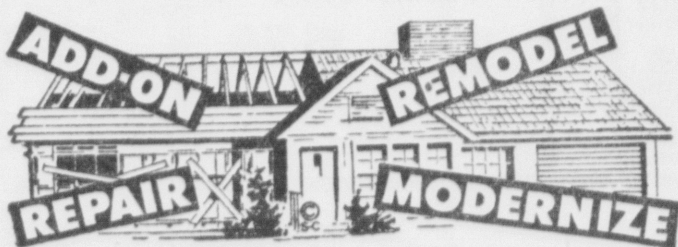

Temperatures near sunrise today included: Cleveland 37, Toledo 35, Bellaire 39, Columbus 40.

**Workman Is Killed In Water Ditch Cavein**

CINCINNATI (AP)—An 18-foot-deep water main ditch caved in Wednesday in northern Hamilton County, burying two men. One suffocated.

Other workers at the project dug out Lucius Pellatte, 38, of Cincinnati, hospitalized with a broken arm and other injuries. But Kenneth Knight, 25, Burlington, Ky., was dead after being under four feet of earth for nearly 30 minutes.

Worms called pogonophores settle on the sea floor and secrete a tube around themselves, building it up year after year to a height of perhaps five feet. The pogonophore, which may reach a length of 14 inches, never leaves its self-built prison, but crawls up and down inside.

# Divorced Rector Quits Pulpit; Is Denied Right Wed Widow

AKRON, Ohio (AP) — The divorced rector of the largest Episcopal church in Northern Ohio announced his resignation Wednesday because he was denied permission to marry a socially prominent Akron widow.

Dr. James M. Lichliter, rector of St. Paul's Episcopal Church here, said he was told he could not be rewed and continue in the Episcopal Diocese of Ohio.

The Right Rev. Nelson M. Burroughs of Cleveland, bishop of the diocese which covers Northern Ohio, ruled the divorced men of the clergy cannot remarry under canon law of the denomination, but laity can.

**Adams County Girl, 15, Freed in Shooting Case**

WEST UNION, Ohio (AP)—Anna Hinshaw, 15, has been released without charge from county jail in the shooting of her father, George Hinshaw, 77. Sheriff Eugene Fulton said Wednesday a lie detector test apparently backed up her story of the Sunday shooting. He said the girl apparently tried to scare her father after he became abusive, but the 12-gauge shotgun she was holding fired, wounding him seriously.

**Private Financing OKD For Goshen Grid Team**

BATAVIA, Ohio (AP) — They'll have football next fall at the high school in nearby Goshen if a private group, Goshen Recreation Club, can raise \$2,500. The Goshen school board changed its mind Wednesday and agreed to allow a football program if the money was raised. Last month the board decided to drop football because of rising costs.

# Canton Seeks Extradition Of Ex-Ohioan

CANTON, Ohio (AP) — Police have started extradition proceedings against a former Alliance insurance man picked up in Miami, Fla., and charged with bilking a Canton man of \$73,000.

In Florida, Lt. Douglas Stone of the Dade County sheriff's department said the man's operations could run into the millions of dollars.

Arrested on a warrant supplied by Canton police was Curtiss E. Christ, 40.

Stone said he had "names of 78 people in Florida and Puerto Rico alone where he (Christ) allegedly obtained a cash total of \$1,300,000 in the last three or four years. "The final total may reach \$3 million," he said.

The lieutenant said Christ allegedly bilked people by selling them notes on which he promised to pay 4 per cent interest per month. The money was to be invested in a car rental business, Christ would tell his victims, Stone said. "he would get \$5,000 from the investor, give him a note with interest and promise to pay it back in a year. "However, when the note expired, instead of repaying the money he would give the investor another note."

A warrant was signed by Paul Hutchison, who said he had worked with Christ in a Canton insurance office over a five-year period. Hutchison said "a good many people in this area, possibly 20 or 30, invested."

# Stuebenville Slayer Is Granted Parole

COLUMBUS, Ohio (AP) — Gov. Michael V. DiSalle has made a convicted slayer from Steubenville eligible for immediate parole.

The governor, on the recommendation of the Pardon and Parole Commission, Tuesday commuted the life sentence of 63-year-old Willie Martin from first to second-degree murder.

Martin has spent more than 30 years in prison for the fatal shooting of Rose Nixon in a Steubenville speakeasy in 1930.

# Weekly Food Review

By THE ASSOCIATED PRESS

With meat production going up, it's meat and more meat for this weekend in the neighborhood and supermarket specials.

One giant chain is offering a 10 per cent discount on all meat purchases.

Last week's turkey and ham offerings have given way in many places to ribs of beef, all kinds of roasts, veal and lamb. Fryers, generally lower in many places, are also being offered to vie for the housewives' pocketbook and the Sunday feast.

Eggs generally are lower—from 2 to 7 cents below last week's pricings.

The best buys in vegetables are artichokes, beets, celery, cauliflower, middle sized yellow onions, parsley, eastern potatoes, kale, lettuce, parsnips and turnips.

Good buys are broccoli, cabbage, carrots, corn cucumbers, eggplants, endives, large size onions, green peas, russet and new Florida potatoes, radishes and sweet potatoes.

For fruits the best buys appear to be Mackintosh and some apples, bananas and grapefruit while good buys are red and golden Delicious apples.

Other good buys in the fruit department are Chilean and Peruvian

honeydews, lemons and oranges.

Still fairly expensive among the fruits are cantaloupes, limes, Spanish melons, best quality strawberries and grapes, both domestic and imported.

# Court Shuns Widow's Bid For New Fund

COLUMBUS, Ohio (AP) — The Ohio Supreme Court has denied a Columbus widow's request for additional workmen's compensation in the accidental electrocution of her husband.

Mrs. Anna Hill was awarded \$12,500 in the 1956 death of her husband, Clarence, when a crane struck a 6,400-volt power line during construction of a sewer line. She asked an additional award on grounds that Hill's employer, the Ascon Corp. of Columbus, failed to comply with safety regulations. The high court Wednesday denied the request by a 4-1 vote.

In another decision the court unanimously upheld Hamilton County Recorder Gilbert J. Shaver in his refusal to record state easements obtained for U.S. Highway 50B.

# Business Leaders Show Optimism

WASHINGTON (AP)—A group of the nation's leading business executives holds a generally optimistic view of the economy's trend.

The group, the Commerce Department's Business Advisory Council, estimated Tuesday that the level of business would remain even or rise slightly in this quarter and next, then climb substantially at the end of the year.

The council judged that national output—the total value of all goods and services produced—would reach a rate of \$519 billion to \$520 billion in the fourth quarter compared with an estimated per cent rate of \$503.5 billion.

**General Tire Sues Firestone Company**

CLEVELAND (AP) — A suit charging Firestone Tire & Rubber Co. with infringement of a new patent for making tire treads was filed by the General Tire & Rubber Co. in U.S. District Court here Wednesday.

The patent, awarded to General Tire last December, involves an oil - extender rubber composition for making treads. The plaintiff has filed similar suits against Goodyear Tire & Rubber Co. and the U.S. Rubber Co.

# Ohio Legislative Setup Contested

COLUMBUS, Ohio (AP)—A taxpayer filed suit in U.S. District Court here today to declare Ohio's legislative apportionment method unconstitutional.

James D. Nolan of Cleveland brought the action against the state apportionment board composed of Gov. Michael V. DiSalle, Auditor James A. Rhodes and Secretary of State Ted W. Brown.

## Federal CD Fund May Not Help Ohio CD

COLUMBUS, Ohio (AP)—Counties may have to wait a while for Civil Defense matching money under a new federal program.

Governor Michael V. DiSalle told newsmen Wednesday that a federal check for \$181,000 was deposited by Treasurer Joseph T. Ferguson in the state's general fund from which withdrawals are difficult, instead of in a readily available special fund.

The governor's disclosure came during comment on a blast by Ferguson against what the treasurer termed a lack of understanding about the funds by Finance Director James H. Maloon.

Ferguson's prepared statement said he does not intend to comply with a request to set up a special fund for Civil Defense.

"Although there seems to be some misunderstanding about it," Ferguson said, "it is the state Legislature and not the director of finance who is vested with the authority to appropriate money and to state for what purpose it is to be used."

The controlling board, which passes on use of general funds, approved use of about half the federal allotment to Ohio to aid counties in Civil Defense planning. The rest apparently would go for state planning—whenever it becomes available.

## DiSalle Denies Parole for Toledo Thug

COLUMBUS, Ohio (AP) — Gov. Michael V. DiSalle said today a member of Toledo's old Licavoli gang, sentenced in 1936 for murder, has not demonstrated a readiness for parole.

The governor denied clemency leading to release from Ohio Penitentiary for John G. Pieri, alias John Rai, convicted and sentenced to life as an accomplice in four first-degree murders in 1932-33.

"We do not feel that the inmate has demonstrated an ability to now take his place in society," DiSalle said in following a parole commission recommendation.

Pieri, 55, was 29 when he entered prison here. He was convicted in the slayings of bootlegger Jack Kennedy, numbers operators Norman Blatt and Abe Lubitsky and Kennedy's friend, Louise Bell.

Others convicted with Pieri and serving life terms are Thomas (Yonnie) Licavoli, Sarafino (Wop English) Sinatra, Jacob Sulkin and Ralph Carlesello.

Other accomplices convicted but since released from prison were: Sebastian Lupica, Harry Leonard and Anthony Besase, all convicted of extortion, and Leo Mocer, convicted of blackmail.

## Loudenville Bypass Plans Are Dropped

COLUMBUS, Ohio (AP) — The state Highway Department will drop plans for a \$3 million bypass on Ohio 3 around Loudenville, Gov. Michael V. DiSalle said today.

The governor said the Loudenville Council requested the action after a traffic count showed that the bypass was unnecessary. It was planned to relieve congested traffic through the Ashland County town.

DiSalle explained that opening of Interstate 71 between Columbus and Medina had eased traffic on Ohio 3 and that the bypass no longer is needed.

Nolan said the action was aimed at a 1902 provision in the Ohio Constitution giving each county at least one state representative regardless of population.

Nolan seeks legislative representation on the basis of population that he said would compel 48 of Ohio's 88 counties to join others for purposes of representation. He estimated that such action would mean a net reduction of 28 state representatives.

The appointment board is scheduled to meet soon to determine legislative representation on the basis of the 1960 federal census.

Nolan said he wants the board required to determine representation solely on the basis of population.

Nolan said that the shifting of the population from rural areas to ban centers is on the increase and that, as a result, the tax burden of the Cleveland resident has risen while his representation in the Ohio House has decreased.

"This reduction in the effectiveness of his vote has now reached the point where it violates the privileges and immunities clause of the 14th Amendment, (and) deprives plaintiff of the full right to vote and equal protection of the law . . .," the suit said.

Nolan explained that as a Cuyahoga County voter, he is represented by 16 House members in the General Assembly, equivalent to one representative for every 102,993 county residents. He adds that Vinton and Noble counties, with populations of 10,274 and 10,982 respectively, make his vote nine times less effective than the votes of electors in those counties.

An another example, he said Lake County, with a population of 148,700, is entitled to only one representative, the same as Vinton County.

## Centrifuge Tests Await Astronauts

WASHINGTON (AP)—The long-range countdown may be quickening for the three Mercury astronauts who are first in line for space travel.

In about two weeks they will undergo tests in a giant centrifuge, a whirling device which will expose them to the same acceleration forces one of them will endure when he is rocketed into space.

The National Aeronautics and Space Administration said Tuesday the tests will be given at the Navy installation at Johnsville, Pa.

NASA declined to say when a manned flight will be attempted. It is expected to take place early in May.

## Cleveland Development Drive Gets Big Boost

CLEVELAND (AP) — The two-week-old campaign to raise \$6 million for the University Circle Development Foundation was \$2 million nearer that goal today because of a gift from the Leonard C. Hanna Jr. Fund.

Trustees of the fund Tuesday made \$750,000 available to the foundation immediately. The rest is to be given at the rate of \$1 for every \$2 contributed by other donors.

Pitching Remains No. 1 Red Trouble

TAMPA, Fla. (AP) —The Cincinnati Reds are rich in the outfield, reliable behind the plate and respectable in the infield but whether they improve last year's sixth place position depends upon the youngest pitching staff in the National League.

Manager Fred Hutchinson, a man known for his honesty, puts it this way:

"It's all up to our kid pitchers. If they come through, we'll give 'em all a battle. If they don't, it will be a long season for us. I've never seen so many strong clubs as our league has this year."

Tigers Lose Another Tilt To Chillicothe

Circleville High School Tigers suffered another loss to host Chillicothe yesterday in an 11-1 test.

Yesterday's game got off to an even start in the first inning, 1-1, but the overpowering Cavaliers soon steamed ahead to rack ten more runs. The Tigers now have an 0-2 record.

The Chillicothe team won the test on ten hits. Six errors were marked against the Tigers.

Dick Kline socked a double for the Tigers and Wellington was top slugger connecting on two out of four trips to the plate.

CAVALIER McMillian, the winning hurler, permitted seven hits and fanned five. He walked one man.

Reeser fanned three for CHS, walked seven and was touched for 10 hits in going the distance.

Gary Hall and Ron Hall were leading batters for Chillicothe, each slugging two in five chances at the bat. Hall also recorded a two in five chances at the bat. Hall also recorded a two base hit for the victors.

CHS had four men with singles in addition to Wellington's double. They were by Callahan, Moore, Kline, Stewart and Keeser.

Third baseman Callahan recorded the single run for CHS in the first period of play.

Foster was high man for Chillicothe, totaling three runs.

Tiger Unit Finishes Strong In Field, but Loses at Logan

Circleville's track team made a strong comeback in final field events, but dropped a 66-52 opening meet yesterday at Logan.

The Tiger cindermen were down, 60-31, going into the last three events. They scored heavily in the final competition but couldn't overcome the early deficit.

Leading the Tiger show was Skip Hanson with three firsts. He brought home top places in the 100 and 220 dashes and the broad jump.

Rupert Rudd paced the locals in field events with first in the shotput and discus. George Treggo rolled into the scoring by leaping for a tie with Chapple of Logan in the pole vault.

HANSON, a sophomore, clipped the century run in 10.4 and the 220 in 4.2. His broad jump stretched 17' 6½".

Rudd hurled the shot 40' 10½", then twirled the discus 105' 9". Vern Reichman finished second in the discus throw.

Treggo leaped 5' 6" in the high jump for his tie with Chapple.

Next meet for the Tigers is scheduled Monday at Bexley.

120 High Hurdles (16.8) — Hilton (L), Dennis (C), Winner (D).  
180 Low Hurdles (23.3) — Gabriel (L), Yost (C), Hilton (L).  
100-Yard Dash (10.4) — Hanson (C), Brinere (L), Eberst (L).  
220-Yard Dash (24.2) — Hanson (C), Winner (L), Wing (C).  
440-Yard Dash (54.7) — Matheny (L), Conner (L), Rooney (C).  
880-Yard Run (2.16) — Chapple (L), Waple (C), West (L).  
1 Mile Run (5.18) — Meyer (L), Pharr (C), Heinlen (L).  
880-Yard Relay (1.39.9) — Logan, Circleville.  
1 Mile Relay (35.3) — Logan, Circleville.  
Shotput (40' 10½") — Rudd (C), Dennis (L), Hutton (L).  
Discus (105' 9") — Rudd (C), Reichman (C), Hano (L).  
Pole Vault (9') — McManaway (L), Matheny (L), Ferguson (C).  
High Jump (5' 6") — Treggo (C) and Chapple (L) tie for first, Johnson (C).  
Broad Jump (17' 6½") — Hanson (C), Ferguson (C), Conner (L).

Walnut's Tigers took a close baseball test from visiting Monroe Tuesday on a 2-1 decision.

The Tigers broke a 1-1 deadlock in the fifth inning to take the battle.

Gary Ferguson was the winning pitcher, fanning nine, walking three and permitting five hits. Hunt, hurling for Monroe, fanned nine, walked two and permitted six hits.

Socking two - base hits for Walnut were Ferguson, Richards and Giese. Hunt had a double for Monroe.

Hoover and Ferguson recorded two hits in three trips to the plate for Walnut. Monroe's Ingman connected two singles in two chances at the bat.

The same goes for such masters "bridesmaids" as Ken Venturi, last year's one-stroke-behind runner-up, or Dow Finsterwald, Billy Casper and Julius Boros, who finished in that order behind Palmer and Venturi.

By Sunday afternoon's nationally televised windup, South African Gary Player, 1961's leading PGA money-winner, or an amateur like Jack Nicklaus, the amazing Ohio State strong boy; current simon-pure champion Dean Beman; or Billy Joe Patton, who gave fits to the 1954 Masters field, may have dethroned Palmer.

Palmer said a meeting for officers and directors only will be held 7:30 p. m. Sunday in the National Guard Armory on E. Franklin St. He said the group will fix a program agenda for the Tuesday meeting at this time.

Su Mac Lad Is Favored In \$25,000 Trot Test

YONKERS, N. Y. (AP) — Su Mac Lad, who won last week's first \$25,000 race of the season at Yonkers Raceway, is favored again to win tonight's \$25,000 USA test for trotters.

The rest of the field includes Air Record, Circo, Steammin' Demon, Tie Silk, Senator Frost, Silver Song and Great Lullwater.

Dr. Hull Comes Here Saturday

OSU Great To Speak At Booster Banquet

Dr. Jimmy Hull, former Ohio State University All-American and Greenfield High School cage star, will be guest speaker at Saturday's annual Basketball-Wrestling banquet at Circleville High School.

The banquet, sponsored by the Circleville Booster Club, will be in the CHS social rooms. A carry-in dinner will be served starting at 6:30 p. m.

Dr. Hull, now a Columbus dentist, still is an avid follower of the cage sport. Naturally, his favorite team is Ohio State and he maintains a vast field of statistics on each Buckeye player.

Those attending the banquet can expect to hear some genuine inside information on the mighty Bucks.

SPECIAL honors will be paid to the CHS cagers of Coaches Dick Snouffer and Jack Weikert and Coach John Current's rugged wrestling team of the past season. Cheerleaders also will be honored.

The popular carry-in dinner will prevail. Parents, fans, coaches and Boosters are requested to bring a covered dish and their own table service. The Booster Club will furnish ham and baked beans, refreshments and other essentials.

According to Booster President Ralph Starkey, coaches' wives and cheerleaders will handle decorations.

Williamsport Downed by Scioto, 19-4

Scioto stormed past Williamsport in baseball action Tuesday at Scioto in a 19-4 test.

Scioto led in the game from the beginning. The Buffaloes scored one run each in the first two innings, ten in the third, one in the fourth and six in the fifth. Williamsport collected its four runs in the fourth and fifth.

Wilkins hurled for the Scioto victory. He permitted five hits and struck out eight.

Leading sluggers for Scioto were Hudson with a double and a single, and Albright with three singles in four chances at the plate.

Williamsport's Steinhauer fanned three and permitted 11 hits.

Cletis Boyer hit onlt .242 for the Yankees last season but his bat was hot against Washington. He hit .311 against the Senators.

Cook Coaches Baseballers at Akron U.

Jim Cook, Circleville High School graduate and the newest coach on The University of Akron athletic staff, will pilot the Zips baseball team this spring.

Cook joined the staff February 15 as an Instructor in Physical Education and Assistant Football Coach. A graduate of Denison University, he began his coaching career at Maumee High School and was coach at Mansfield Madison High School three years before coming to Akron.

Thus far, Cook's team has been limited to indoor drills by the cold and wet weather. But he hopes to step up the pace outdoors as soon as the weather clears.

A squad of 52 has been working out, but Cook faces the task of selecting a roster and finding replacements for four veterans before the first game April 13 against Wooster at the Zips' Buchtel Field.

HE also will be developing a pitching staff that can carry the Zips through a 16-game schedule. Akron last year owned a 6-8 record overall and 5-7 in the Ohio Conference.

His key players are expected to be Tom Adolph, righthanded sophomore from Mogadore, and outfielder Ed Ardelian, sophomore from Akron East.

Adolph led the pitching staff last spring, posting a 3-3 record and a 1.58 earned run average. Ardelian hit .400 on 14-35 to place the hitters.

MIGHTY MAN OF MAUL - - By Alan Mavor

Another Oriole Flag Bid Is Expected This Season

MIAMI (AP)—Baltimore's bold bid for the American League pennant, halted only by the Yankees' climactic 15-game winning streak, took everybody by surprise last year. A similar Oriole effort won't astonish anybody this year.

Manager Paul Richards thinks his young Birds are capable of winning their first major league pennant since John McGraw's Orioles captured the National League championship in 1896.

Views on TV - Radio

By CYNTHIA LOWRY  
AP TV-Radio Writer  
NEW YORK (AP) — Pat McGowan is a new name, a new face in American television. But "Danger Man," the series in which he stars, seems as familiar and well-worn as last winter's hat.

The first episode of the CBS program which started Wednesday night was a carbon copy of all those foreign intrigue tales of a 1,001 TV nights before it.

The hero, John Drake—played by the dashing McGowan—is an international cloak-and-dagger operative. There is the usual meeting in a Paris sidewalk cafe, with exchange of secret passwords, when he receives his assignment.

Hans Vogler, chief executioner of an unnamed enemy, has killed old Prof. Barloff.

Get Vogler. Drake does, of course, after the usual chase through the woods. The chase was a little more complicated than usual because Drake was pursued while uncomfortably handcuffed to a pretty girl. But it all ends neatly with the usual fight scene during which a gun goes off. Vogler gets his — accidentally of course.

Unfortunately, "Danger Man" seems just another cliché-filled little TV trifle.

Dinah Shore will definitely be back on TV next season. NBC has finally decided to alternate Dinah's variety hour with the Telephone Hour on Friday nights, 9:30-10:30. The Shirley Temple Show has already gone into reruns, although there's one new show scheduled to be shown May 14 called "Rebel Gun."

Recommended tonight: "Silents Please," ABC, 10:30-11 Eastern Standard Time — condensed version of "The Hunchback of Notre Dame," starring Lon Chaney.

Narrow and very curvy in many places, the Carriage Road is opened only from dawn until dusk, even in summertime!

## Famed Old Carriage Trail Was First Opened in 1861

By JOHN F. SEMBOWER  
Central Press Association  
Correspondent

MOUNT WASHINGTON, N. Y. — It is legend that men will beat a path to the door of the man with a better mousetrap, but why celebrate the centennial of the road leading to "the worst weather on Earth"?

The answer is that the weather is atop fabulous Mount Washington, whose nasty climate is confined to its lofty summit 6,288 feet above sea level, and the "path" whose anniversary is being marked is the picturesque old Carriage Trail, first opened in 1861.

One of the nation's most challenging highways, it will be a mecca during coming months for a host of motorists who will churn up its sharp grades during "visiting hours" from 6 a. m. to 9 p. m., to see the "weather breeding" peak on its good behavior climatically.

New Hampshiremen assure you that the bad moods of the tallest peak in the Presidential range are confined to its upper slopes.

In scaling the heights, adventure-some motorists encounter some of the most breath-taking vistas on the continent. Deep ravines and wild scenery are climaxed in the last 1,000 feet by rare Alpine flowers and dwarf balsam, spruce and birch.

In the more benign months, the lofty meadows and two rock-trimmed crystal clear lakes, called the "Lakes of the Clouds" belie the horrendous blasts that beset the peak in other seasons and justify its terrible reputation.

Winds up to 231 miles an hour and temperatures 60 below zero make winter a nightmare on the summit. Nevertheless, a crew operating a television station's antenna and a military research expedition has weathered the ordeal in the months just closing. Snocats have broken through the road with supplies once a week this winter. Radio comedians Bob and Ray

indulge in a little fantasy by pretending to pick up daily weather bulletins from the top of Mount Washington. These usually end in an eerie whine as the "reporter" is snowed under, but actually the rigors of the windy point may be compared validly with the worst that Antarctica can inflict.

Mount Washington is the tallest of five peaks in its range which tower over 5,000 feet, and first was sighted from the ocean by the earliest explorers in 1605.

Darby Field, led by two Indian guides, in 1642 was the first settler to conquer the peak, and the Rev. Manasseh Cutler, leading a scientific expedition in 1784, named it after the first President.

Several trails have been blazed to the summit over the years. The Crawford Path, approaching from the southwest, was finished in 1821 and became a bridge path.

The famous cog railway, long a favorite with tourists in the Northeast, was completed in 1869 from the Base Station to the rugged Summit House, and to be one of the most formidable wooden structures ever built.

However, the biggest excitement was the completion, while the Civil War was brewing, of the carriage road. At a cost of \$8,000 per mile—

## Unfaithful Wife's Slayer Is Sentenced

PITTSBURGH (AP) — A Little Rock, Ark., man who admitted strangling his wife supposedly after she told him she was spending time with another man has been sentenced to life in prison for first-degree murder.

Robert P. Uhlmann, 37, was sentenced Wednesday in Allegheny County (Pittsburgh) Court after two judges listened to testimony for three days to determine the degree of guilt.

The furniture salesman was accused of flying from Little Rock to Pittsburgh last Aug. 21 and strangling his wife, Gloria Mae, 37, in her suburban Baldwin Twp. home.

Authorities arrested him in Little Rock about 12 hours later after he had flown back.

Uhlmann testified he came to Pittsburgh to urge his wife to return to Little Rock with him and to check reports Gloria Mae was having an affair with another man.

An argument developed, Uhlmann testified, and he quoted his wife as saying: "If you really want to know, there is someone else."

Uhlmann testified: "I flew into a rage. I was never so mad in my life. I saw a white flash."

He said he didn't remember strangling her.

## American Hovers Near Death After Release by Red China

HONG KONG (AP) — Robert McCann of Pasadena, Calif., released after nearly 10 years imprisonment in Communist China, hovered near death here today.

Doctors canceled all plans to fly him to a U.S. Air Force hospital in Manila unless his condition, which they described as extremely grave, improves. McCann, 60, long a businessman in China, is dying of lung cancer.

Attendants at St. Teresa's Hospital said he was semiconscious and tossing restlessly.

McCann was carried across the Chinese Communist border into Hong Kong on a stretcher at noon today. He was half conscious then, apparently under heavy sedation. His eyes were glazed, his body emaciated.

His wife, who flew 9,000 miles last week to be at his side, said his condition took a drastic turn for the worse during their grueling 1,500-mile journey by plane and train from Tientsin, in North China.

She herself was on the point of exhaustion, having had only two hours sleep in the last 48 hours. Doctors ordered her to bed.

A delay in transferring McCann across the border contributed to his critical condition, an attending doctor here said. The McCanns reached the Communist side of the border station at Lowu at 6, but Communist officials did not notify the British Red Cross he was there until noon, the previously scheduled hour for the transfer.

McCann, meanwhile lay on a stretcher on the floor of the railroad station waiting room.

McCann was born of missionary

parents in China and became a businessman in Tientsin. He was interned by the Japanese during World War II and arrested by the Chinese Communists on June 14, 1951. He was sentenced to 15 years in prison on espionage charges.

Peiping announced on April 3 McCann was being freed "in the spirit of humanitarianism." British Red Cross officials said then that McCann was in extremely critical condition and might have only a few days to live.

## Speeding Boys Slow Down at 105 Mph.

MEDINA, Ohio (AP)—Two 16-year-old Geauga County boys were arrested Wednesday night when they "slowed down" to 105 miles an hour to change drivers, the Highway Patrol reported.

The patrol said the boys sped 120 m.p.h. on Interstate 71 at one point. The boys, cited to appear in Juvenile Court, were released to their parents.
